

SK02-5W

5 Watt

Motion Sensing

(500 Lumens - 6.4 Volts 4.5 AH)

SK02-12W

12 Watt

Motion Sensing

(1200 Lumens - 9.6 Volts 6 AH)

SK02-20W

20 Watt

Motion Sensing

(2000 Lumens - 12.8 Volt 6 AH)

PIR Motion Sensing Integrated PV / LED Solar Lighting

InnoSolar SK02 Series

Real Energy Savings for you and DIY Install

Rapidly escalating energy costs in Australia are set to continue so off-grid solutions are a valuable alternative. Combining the technologies of heavy duty IP65 ABS UV

resistant cover construction (5W and 12W) or Aluminium (20W) with high quality poly crystalline PV panel, world class Lithium Iron Phosphate (LiFePO4)

battery and high quality long-life LED light with infra-red sensor, **SK02 Series off-grid lights** will provide years of trouble free operation.

Typical applications include:

- ✓ home entrances, garages and carports
- ✓ public area lighting including marinas, schools, caravan parks, street lighting and carparks
- ✓ Camping sites, farms and other rural applications
- ✓ Security lighting in and around retirement community or leisure complexes.

Forget about expensive cabling, skyrocketing energy costs and trade call-outs with the new **SK02 Series Integrated Outdoor Light** suitable for pole or wall mounting.
