Plumbing Report

- + Check Flexilines to ensure they are not rusted/damaged
- + Check all taps to ensure no leaks
- + Check toilets for leaks and signs of failure issues
- + Check under sinks/ vanities to ensure no leaks on wastes
- + Check hot water temperature . Water needs to be no hotter than 50 degrees

A quote will be given if any issues are discovered. Should you wish to proceed with work, a booking will be made at a later date. A roof inspection can be arranged at an additional cost if required.
